

Safety gloves

Mechanical Risks

uvex phynomic F XG

- Lightweight and sensitive cut protection glove with the maximum cut protection level for mechanical activities in damp and oily areas
- Aqua polymer Xtra Grip coating on the palm and fingertips
- Touchscreen compatibility
- The long service life of the glove reduces costs and waste
- Excellent fit, feels like a second skin

Xtra Grip

MADE IN GERMANY

EN 388: 2016

4 X 4 3 F

EN 407: 2020

X1XXXX

uvex Point of Difference	Benefits
Very high level of cut protection and high tear resistance due to the optimal material composition	Maximum protection (EN388:2016 cut level F) for serious cut risk applications
EN407: 2020 level 1 contact heat	Protection against contact heat up to 100°C
uvex aqua-polymer Xtra-Grip coating	Provides wearer with outstanding grip in oily environments and high levels of abrasion resistance
Extremely breathable thanks to the open-pore foam coating	Comfortable to wear for long durations in humid and hot regions
Perfect fit thanks to the 'slim-fit' design and 3D Ergo technology	Feels like a "second skin" and forms comfortably to the wearers hand
uvex Pure Standard and free from allergenic accelerators	Free from harmful substances (OEKO-TEX® Standard 100) and skin friendly confirmed by dermatologists (proDERM)
Touchscreen compatibility for use on all standard screens, tablets and mobile phones	The glove stays on during the full period of exposure
