- Industrial
- Construction

How smart retract works

1. Push blade slider
forward to extend
blade

2. Begin cutting while
thumb is still on the blade
slider

3. Blade automatically
retracts after cutting

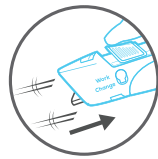

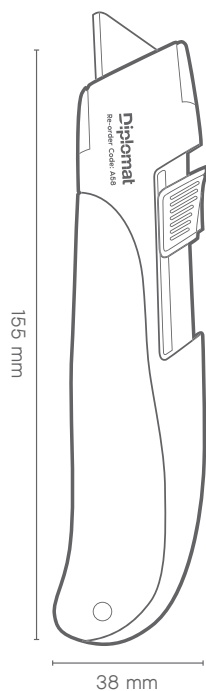

Diplomat

Safety Retractable Knife

Smart Retract

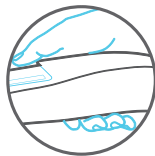

A58B

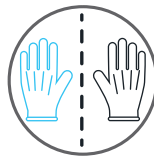

Blade automatically retracts after cutting even when still holding the blade slider

Reducing injuries and damaged goods

Comfortable grip

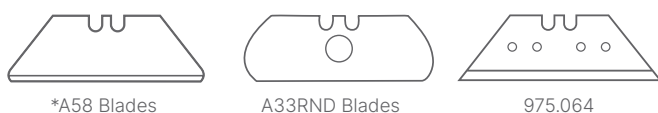

Suitable for left and right hand use

The Diplomat A58B Safety Knife features smart automatic blade retraction technology that reduces injuries. The blade self retracts when it loses contact with its cutting material, without the user releasing the blade slider.

Features & Benefits

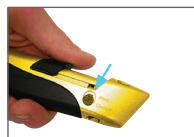

- Most popular work safety knife choice
- Blade automatically retracts after cutting
- Lightweight with anti-slip rubber grip
- Large blade slider for better control
- Quality heavy duty metal construction
- Easy to change blade, no tools required
- Suitable in multiple industries & applications
- Tested and used in Australian workplaces

Replacement Blades

*Recommended blades for this knife

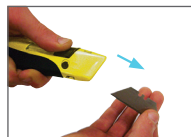

Instructions for changing blades

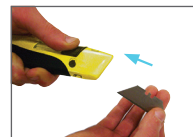

1. Set to "change" position

2. Hold onto slider and extend blade fully

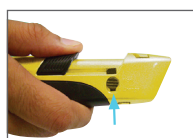

3. Carefully remove blade

4. Replace blade

5. Carefully retract blade into knife
