- Education

How smart retract works

1. Push blade slider
forward to extend
blade

2. Begin cutting while
thumb is still on the
blade slider

3. Blade automatically
retracts after cutting

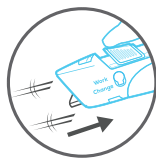

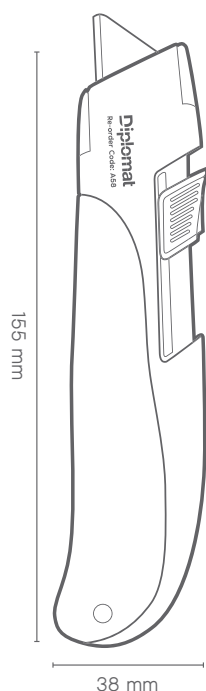

Diplomat

Safety Retractable Knife

Smart Retract with **Ceramic** Blade

A58C

Blade automatically retracts after cutting even when still holding the blade slider

safer than metal blades

Comfortable grip

Reducing injuries and damaged goods

The Diplomat A58C Safety Knife features a high-performance ceramic blade that delivers exceptional durability and stays sharper longer than traditional blades. Its advanced dual action auto retraction system instantly withdraws the blade when it loses contact with the cutting surface without requiring the user to release the slider, helping reduce injury risk. The **ceramic** blade is rust-resistant, non-conductive, non-magnetic, and non-sparking, making it a superior and safer alternative to conventional metal blades.

Features & Benefits

- Heavy duty, lightweight metal housing with comfortable rubber grip
- Ceramic** blade - safer than metal blades
- Blade automatically retracts after cutting even when holding the blade slider
- Large blade slider for better control
- Lasts longer than metal blades
- Reversible blade for double the life span
- Easy to change blade, no tools required
- Suitable in multiple industries & applications
- Suitable for left and right hand use

Replacement Blades

(ceramic blade)
A58CB-100

WHY CERAMIC?

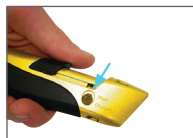

CERAMIC	VS	METAL
✓ LONGER LASTING		✗
✓ SAFE-TO-TOUCH		✗
✓ DURABLE HARD MATERIAL		✗
