|            |                         |
|------------|-------------------------|
| MATERIAL   | Zirconium Oxide         |
| DIMENSIONS | L:62mm, W:0.8mm, H:19mm |
| WEIGHT     | 3 grams                 |

## Why Slice?

Slice design and manufacture innovative cutting tools for many uses with one goal: to make cutting safer without sacrificing effectiveness. Their line of cutting tools are: ergonomically designed to reduce hand strain and related injuries, lightweight and durable with "finger-friendly" advanced ceramic safety blades. All tools are ambidextrous. Safer cutting for everyone.

## Features & Benefits

- Safer than traditional blades
- 100% zirconium oxide blade that never rusts
- Non-conductive ceramic blade for added safety
- Chemically inert ceramic blade that never rusts
- Slice® ceramic blades last up to 11x longer than traditional metal blades
- Ceramic blades are reversible

### longer-lasting Slice safety blades

## slice® Advanced Ceramic Longer Lasting Blades

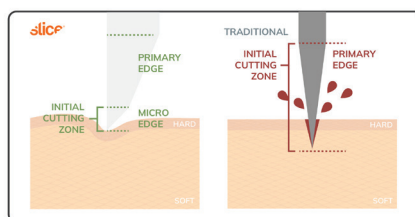

Ceramic is significantly harder than steel = exceptional wear resistance

## slice® Advanced Ceramic Finger-Friendly® Blades

Slice blades have a multi-bevel grind, making them Finger-Friendly®
